

1. Create Report

2. Register Report To EBS

The screenshot displays the Oracle Developer environment with two main windows open: the 'Object Browser' and the 'Document Program Execution' dialog.

Object Browser: The left pane shows the 'ALJOLANDA' schema. The right pane displays a list of objects, including reports and programs. The object 'ALJOLANDA_MASTER_DETAIL_REPORT.rpt' is highlighted.

Document Program Execution Dialog: This dialog is used to register the report to EBS. It contains the following fields:

- Executable:** ALJOLANDA_MASTER_DETAIL_REPORT
- Short Name:** ALJOLANDA_MASTER_DETAIL_REPORT
- Application:** Application Object Library
- Description:** Oracle Reports
- Execution Method:** Oracle Reports
- Execution File Name:** ALJOLANDA_MASTER_DETAIL_REPORT
- Subroutine Name:**
- Execution File Path:**

The 'Page Function Parameters' button is visible at the bottom of the dialog.

At the bottom of the screen, a status bar indicates: 'TRN-0000: Transaction complete: 1 records applied and saved. Record 1/1'. The system clock shows 11:53 AM on 9/24/2024.
